

DZ3

Power Cable Puncture Instrument

Features:

- Specifically designed for cable piercing, mountable at any angle on cables;
- Suitable for piercing various power cables, with safe and reliable piercing operation;
- Dual-gun, dual-angle piercing completes two angles and two piercing operations simultaneously in a single test run;
- Remote Control/Timed dual operating modes;
- Dual-key confirmation to enter working mode, ensuring the safety of operators;
- Features synchronized human voice prompts and LCD display, enabling safe, accurate, and intuitive use;
- Multiple mechanical and electronic protection mechanisms ensure safety and reliability;
- Powered by standard dry batteries for field use without mains power, ensuring complete isolation from electrical systems and power supply safety.

Technical Specifications:

- Remote Control Distance: Wireless remote control ≤ 20 meters
- Applicable Cables: Various power cables with diameter $\leq \phi 125$ mm
- Operating Power source: $8 \times 1.5V$ batteries
- Operating Environment: Temperature $-10^{\circ}C$ to $50^{\circ}C$, Humidity RH $< 95\%$
- Weight: Complete equipment set including aluminum alloy case: 11 kg
